

WHY WSLH PT?

Our history

WSLH Proficiency Testing has been building a solid foundation for laboratory improvement since 1966. WSLH PT was developed by the Wisconsin State Lab of Hygiene's (WSLH) collaborative efforts to create proficiency testing programs that improved laboratory quality. Based in Madison, Wisconsin, WSLH PT continues to be part of a national public health laboratory with a UW-Madison affiliation. Today, we provide proficiency testing services across the United States and around the world.

Reliable, affordable, & easy-to-use proficiency testing products with rapid access to results

What our customers are saying

Ease the burden on lab staff

- PT Data Upload

I placed a small order; however, you treated me with the professionalism and the attention as if I had place a large order.

-Jason C.

I want to compliment WSLH for great customer service!

-Lauren M.

I would love to share the positive experience we just had from WSLH. We need an off-schedule proficiency; and, from the time I contacted WSLH to getting our results back so quickly, Tracy responded so quickly and made everything effortless.

-Christy M.

Working with WSLH was an excellent experience.

-Cathy S.

Great customer service!

-Warren B.
